PADDY TRANSPLANTER - 4 ROW WALK BEHIND

Greaves Paddy Transplanter 4 Row (Petrol Version)

Now Paddy Sowing is easier and economical than ever before. What's more, you can stop relying on expensive farm labour.

Technologically advanced, the Paddy Transplanter identically regulates the space between rows of the crop and controls the density. It is a boon to wipe out weeds by spraying pesticides.

Advantages

- Easy Operation
- Less Dependency on Farm Labour
- Reduced Labour Cost

Salient Features

- Self-adjustment Float Mechanism. Wheel placement can be positioned according to the depth of the paddy sow. Since it uses very less field contact pressure, it avoids surface pressure.
- Rubber Truck Wheel: Provides best traction in paddy fields
- Plant Space Adjustment: To adjust the number of plants in a bundle
- Plant Row Space Adjustment: To regulate the space between rows.
- Detachable Wire Resistant Needle: For long life of the needle.
- Spare Seeding Tray: For placing more plants.
